EDUCATION

University of Western Ontario　　　　　　　　　　Sept. 2018 to May 2022 (Expected)
B.Sc. Computer Science

Markville Secondary School　　　　　　　　　　　　　Sept. 2014 to June 2018
Honour Roll

PROJECTS

eKnock, *StarterHacks 2019 (Waterloo, ON)*　　　　　　　　　　Jan. 2019
- Developed a song recommendation android application that reflects user's tone
- Integrated various APIs including Spotify Recommendations and IBM Watson Tone Analyzer.
- Designed using Android Studios and written mainly in Java.
- Focused on researching appropriate Spotify APIs and helped create an algorithm that connects the IBM Watson Tone Analyzer with the Spotify Recommendation API.

Classify, *uOttaHack 2019 (Ottawa, ON)*　　　　　　　　　　　Feb. 2019
- Created a web application using Flask to automatically connect students in the same classes into group chats.
- Stored accounts and chat information using Google Firebase and the Python library Pyrebase.
- Primarily worked on the front-end design and the back-end integration using Flask.

Dog Walking Exerciser　　　　　　　　　　　　　　　　　　Dec. 2018
- Designed a Python program that creates a randomized list of exercises to do while walking your dog.
- Includes a GUI where users can enter information for a custom set of instructions.

School Apparel Logo　　　　　　　　　　　　　　　　　　　Jan. 2018
- Logo was chosen against dozens of others to be printed on t-shirts and hoodies.
- Purchased by over 100 Markville Secondary School Students.
- Made using Adobe Photoshop CS6 and Illustrator CS6.
